## Allowable Subject Matter

1. Claims 15-34 are allowed.

Independent claims 15 and 19 recite "... transmitting, when the extension byte of said current header is different from the extension byte of said anterior header, the extension byte of said current header and an extension start code indicating the beginning of the extension byte of said current header, and not transmitting, when the extension byte of said current header is the same as the extension byte of said anterior header, the extension byte of said current header and an extension start code indicating the beginning of the extension byte of said current header..." which is a feature that is not anticipated nor obvious over the art of record. Independent claims 17 and 21 recite "...decoding said bit stream, wherein data related with a current header of said specified layer is decoded using the extension byte of said anterior header when said current header does not include an extension start code indicating the beginning of the extension byte of said current header..." which is a feature that is not anticipated nor obvious over the art of record. Dependent claims 16, 18, 20, 22-34 are allowed for the reasons concerning the independent claims.
